## WORK EXPERIENCE

**24/06/12 - 15/08/12:** Fine Wine Broker (summer job) Encarta, Bromley

- As a fine wine consultant, my role was to inform potential clients about the vintage fine wine market. If they expressed further interest, I was expected to recommend an investment plan tailored to their financial stance.

Skills I gained:

- Good listening skill: As a consultant, I was tasked with designing an investment plan tailored to each clients. In order to achieve such task, I must understand fully each client's needs regarding

- Flexibility: I believe flexibility is an integral skill pertinent to any chosen occupation, as the majority of employees face situations where they are required to work extra hours. I believe this skill is evidently portrayed as one of my key attributes.
- Problem solving skill: When faced with a client rebuttal, I had to think of ways to counter their objections.

**18/06/11 - 03/09/11:** Recruitment Consultant (summer job) E-Junior, Sydenham

- As a recruitment consultant, my primary responsibilities were to; build a rapport with clienteles and assisting them with employment.

## **INTERESTS**

### **Reading**

I love reading crime fictional novels. My favorite authors from such genre are Michael Connelly and David Baldacci. I love their style of writing, especially the technique used to develop and maintain the suspense to the very last page of the novel

### **Computing**

I love to indulge in activities like football and table tennis with peers, however my primary interest revolves around the passion for computer science. I often facilitate the use of online tutorials to gain a theoretical and practical aspect of programming languages.
